

Technology kit for Minilift L, underground KTP300 res.

Article information

Item no.: 280570C-TK GTIN: 4026092108093

Price group: 20

Description

For combination with a KESSEL shell kit for creating a Minilift L small lifting station for wastewater without sewage.

The ready to plug in small lifting station for wastewater without sewage is suitable for the disposal of wastewater from individual drainage sources. The submersible pump with float switch can be removed easily with the help of one-handed closures. The collection tank made of polymer (PE) has an open pump tank and is resistant to aggressive wastewater. The system for installation in the floor slab is pre-assembled for final installation on site.

KESSEL technology kit consisting of:

- Pump with multi-vane vortex impeller for maximum operating safety

- Resistant to saline media, wastewater from water softening systems and wastewater containing condensate from heating systems

- Includes float switch for level measurement

Variant

Type of system: Single unit

Resistant: Resistant to waste water containing salt, softener

and condensate

Pump control: Float switch Backflow preventer: integrated

Dimensions

Net weight: 4,05 kg
Gross weight: 4,34 kg
Packaging dimension: length
Packaging dimension: width
Packaging dimension: height

Pumping device

Pump: KTP 300 resistant

Number of pumps: Weight, pump: 4 kg

Connection type: Schuko (earthed contact) 2-pin

Protection class: F Insulation class:

IP 68 (3m) Protection class (pump): Temperature monitoring: integrated Max. temperature (permanent) of conveyed 40 °C

material:

Max. pumping capacity: 8 m³/h Max. pumping height: 6 m

2800 U/min Speed: Power P1: 0,34 kW Power P2: 0.21 kW Operating mode: S1

Type of pump connection cable:

H07RN-F 3G 1.5 mm² Impeller type: Multi-vane impeller

Type of fuse required (pump): C 16 A Length of mains cable for pump: 5 m Rated current: 1,6 A

Control

50 Hz Mains frequency: 230 V Operating voltage:

Connection type: Schuko (earthed contact) 2-pin
