Description

The narrow Linearis Infinity channel for walk-in showers is suitable for indoor linear drainage for household and commercial use. The narrow Linearis Infinity channel for walk-in showers is suitable for indoor linear drainage for household and commercial use. The channel profile made of 316 stainless steel can be extended straight or at three (30, 45 and 90 degree) angles. The drain body made of PP is equipped with sound and settlement absorbers. These reduce operating noise and can compensate for subsidence in the floor structure. The channel contains a clip-on flange with a factory-mounted waterproofing membrane according to DIN EN 1253-1 and DIN 18534-1-W3-I. The channel profile can be pushed in the lengthwise and transverse direction in the clip-on flange to compensate for construction tolerances. Including Megastop mechanical odour trap with water seal. Open seepage water openings, without flooding of the waterproofing level in the event of build-up.
