

Ecolift XL backwater lifting st. Duo, 1 motor-driven flap, SPF 1400-S1

Article information

Item no.: 8741026 GTIN: 4026092068434

Price group: 60

Advantages

- Wastewater drainage without interruption, even if a power failure occurs, as long as there is no backwater
- low pump use
- minimised noise emissions

Description

The backwater lifting station for faecal and non-faecal wastewater is equipped with two submersible pumps, one motor-driven and one mechanical closure system and a backflow preventer. The collection tank made of permanently resistant polymer (PE) has an enclosed pump tank. Quick-release closures enable the integrated components to be removed easily. Normally, draining takes place via the natural fall to the sewer. Backwater is detected by an optical probe, which causes the motor-driven closure system to close automatically and there is no longer free passage to the sewer. During the backwater phase, the water drains via a pressure pipe, which carries the wastewater into the sewer. The pressure pipe is a welded PE pipe; with pump SPF 4500, the pressure pipe must also be continued up to a pressure release chamber. The station is controlled by a user-friendly control unit, which is optionally integrated in the building management system via a potential-free contact, or alarm and collective fault messages can be output via a GSM interface. The KESSEL modular system provides different upper sections and engineering chamber options as accessories.

Variant

Note on installation depth: Version for deeper installation

Type of system: duo pump

Shut-off valve: Shut-off valve made of polymer

Passage seal for conduit pipe (DN): 100 Passage seal for ventilation pipe (DN): 70

Pump control: Control unit

Backflow preventer: integrated Pressure pipe connection: horizontal

Motor-driven backwater flaps: 1
Mechanical backwater flaps: 1

General characteristics

Colour: black

Standard: ÖNORM B 2501

Type of wastewater: for wastewater with and without sewage

Installation situation: free-standing installation

Delivery state: Pre-mounted for final assembly on site (pumps and

sensor system must be fitted on site and control

unit must be connected)

Backwater protection: Type 3 Approval: Z-53.2-493

Dimensions

Net weight: 163 kg
Gross weight: 187 kg
Groundwater resistant from lower edge of base 3000 mm

section:

Vertical drop between inlet and outlet:

Length:

1384 mm
Width:

1200 mm
Height:

695 mm
Packaging dimension:

length
Packaging dimension:

Tank/drain body

Nominal pressure (PN): 10
Pressure pipe connection (DN): 80
Pressure pipe connection (OD): 90 mm

Channel: continuous channel

Venting connection (DN): 70
Distance pipe bottom outlet to tank bottom: 120 mm
Distance pipe bottom inlet to tank bottom: 135 mm

Number of outlets: 1

Outlet nominal size (DN): 150 mm Inlet nominal size (DN): 150 mm

Number of inlets: 1

Clear width of tank (LW): 1000 mm
Pumping volume: 20 l
Tank volume: 65 l

Pumping device

Pump: SPF 1400-S1 EcoXL

Number of pumps:2Weight, pump:28 kgConnection type:coded plug

Rated current: 7,3 A
Protection class: I
Insulation class: F
Cos phi - power factor: 0,99

Protection class (pump): IP 68 (3m/48h)
Temperature monitoring: integrated
Max. temperature (permanent) of conveyed 40 °C

material:

Max. pumping capacity:

Max. pumping height:

Speed:

Power P1:

Power P2:

Operating mode:

Type of fuse required (electrical protection):

28 m³/h

7,5 m

1420 U/min

1,6 kW

1,1 kW

Constant of the protection of the protectio

Type of pump connection cable: H07RN-F 7G 1.5 mm² Impeller type: Multi-vane impeller

Free passage: 40 mm Length of mains cable for pump: 10 m

Control

Control unit: Comfort Plus

Standby power: 5 W

Alarm sensor: optical probe Level measurement instrument: Immersion pipe Type of level measurement: pneumatic IP 54 Protection class control unit: Operating voltage: 230 V Connection type: coded plug Length of mains cable for control unit: 1,6 m Potential-free contact: yes GSM interface: yes yes

USB interface: yes
Log book function: yes
Multi-line display: yes
Battery buffering: yes
Self-diagnosis system (SDS): yes
Type of fuse required (electrical protection): C 16 A
