

## Grease separator EasyClean free NS 30, Mix & Pump

## **Article information**

Item no.: 93030.01/MS GTIN: Price group: 60

## **Advantages**

- Clean and odour-free disposal and cleaning
- Simple control
- Low-maintenance operation

## **Description**

v*i* · ·

The separator for greasy wastewater is suitable for free-standing set-up in frostprotected rooms and comes without metallic components in the tank. The collecting tank made of permanently resistant polymer (PE) is equipped with an integrated sludge trap and has slopes in the tank base for fast and clean disposal. Two odour-tight covers with quick-release closures make easy access possible for cleaning and maintenance work. The innovative Shredder-Mix-System with integrated macerating system is responsible for homogenising and circulating the tank contents. Cleaning and odour-neutral disposal takes place via an exterior pump with 2-way valve and change lever which can be disconnected from the tank by a shut-off valve. Manual control is carried out by a user-friendly control unit that can be integrated into the building management system through a potential-free contact. 20 year polyethylene warranty.

| Variant                                   |                                     |
|---|-------------------------------------|
| Shut-off valve:                           | yes                                 |
